

My idea - a social media site like reddit or quora where users can post questions, blogs, pictures and videos. It would include all the standard features like search for users, sorting through content etc.

Site map -

1. Homepage:
 - Header: Logo, Search bar, Login/Sign-up button, Navigation menu (Home, Explore, Notifications, Profile)
 - Main area: List of recommended communities (groups), Trending posts, Featured content
 - Footer: About, Privacy policy, Terms of use, Contact
2. Community (Group) page:
 - Header: Logo, Search bar, Login/Sign-up button, Navigation menu (Home, Explore, Notifications, Profile)
 - Main area: Community name, Description, Members, List of posts (title, author, time, likes, comments)
 - Footer: About, Privacy policy, Terms of use, Contact
3. Post page:
 - Header: Logo, Search bar, Login/Sign-up button, Navigation menu (Home, Explore, Notifications, Profile)
 - Main area: Post title, Author, Time, Community, Body text, Images/Videos, Likes/Dislikes, Comments
 - Footer: About, Privacy policy, Terms of use, Contact
4. User profile page:
 - Header: Logo, Search bar, Login/Sign-up button, Navigation menu (Home, Explore, Notifications, Profile)
 - Main area: User name, Profile picture, Description, Followers, Following, Communities, Posts, Comments
 - Footer: About, Privacy policy, Terms of use, Contact
5. Login/Sign-up page:
 - Header: Logo, Search bar
 - Main area: Login form (Username/Email, Password), Sign-up form (Username, Email, Password, Confirm password)
 - Footer: About, Privacy policy, Terms of use, Contact

The following are wireframes of Home page and My account page :
